

Ultima organic protein hair for...

# Flaves & Curls

3 hot styles you can fashion instantly with Ultima organic protein hair. Modeled by R&B singing Goddess Natasha.

Ever wish that someone would invent a hair product just like your own natural hair? Ultima has created an innovative hair made from organic collagen protein, a natural source similar to the keratin protein found in human hair.

## ◀ LOOSE BODY

Try this out for a different take on a classic style. Take advantage of the long, loose curl pattern by styling a long and slightly angled bob. Add more layers toward the crown and in the back for extra volume.

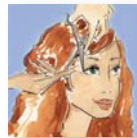

Cut and style into a slightly angled bob.

Layer the crown for added fullness.

## LOOSE DEEP CURLS

In this style, the long side-swept bangs complement the flowing curls. Gently finger comb through the thick tresses for a fresh out of bed look. Use a light application of hair spray on the bangs and they will last all day long.

Trim bangs to desired length.

Finger comb the hair and spray with a light hair spray.

## THE LATIN WAVE

Use simple hand combing to break up the locks.

Take a large tooth styling comb and gently sweep the hair up away from the face. Hold with a light application of hair spray. Finger comb to finish.

Style the hair away from the face.

Set with a light holding spray.
