ULTIMA SPRING CURL

Regular
Curl

Afro
Weave

Like your natural hair, Prota made with Ultima is created from a similar source. Made from organic natural protein, Ultima hair is like the keratin protein found in human hair.

Soft to the touch, Prota **Spring Curl** is a very natural and elegant looking style. A great choice for everyday use. Separate and tease the curls for a regular Afro style, or leave it soft, spongy and natural.

You may want to try a variation making a natural **Afro Weave** in the back with feeding cornrows at the edges.

The **Side Mohawk** style is shown here, popular and easy to care for.

Prota made with Ultima hair can be easily restored by spraying with water mist. Overnight, wrap the edges before going to sleep.

Side
Mohawk
